# STORY OF THE MASTERPIECE

**FOUR WHEELS - ONE ENGINE** and that little something extra. Get on board and start the next season together with your individual driving dream. This masterpiece withstood our qualified testing process, shines with a unique setup and is ready to go "on the road"!

This beautiful Porsche 356 was completely restored with photo documentation in 2007 and converted into a rally car.

In the course of the conversion, the engine was adapted and now has 90hp to become a lively rally opponent, but is also very comfortable to drive in everyday life.

The chassis and the disc brakes were also adapted.

With bucket seats, H-belts and a tripmaster, it is optimally prepared for the next rally. In an emergency, a roll bar protects you in the event of a rollover.
