# STORY OF THE MASTERPIECE

**FOUR WHEELS - ONE ENGINE** and that little something extra. Get on board and start the next season together with your individual driving dream. This masterpiece withstood our qualified testing process, shines with a unique setup and is ready to go "on the road"!

New to us is this well maintained Daily Driver Porsche 356.

Originally delivered to Hofmann in the USA, the „Silver Lady“, as the owner called his sweetheart, accompanied him for over 30 years not only through Europe but also in the USA, his country of origin. He bought the car there used in 1990.

4 years later, the now Austrian by choice, moved to Europe because of love, but one thing was clear: the Silver Lady had to go with him! So it was that in 1995 the Porsche was brought back to the continent, where it had been hand-produced and built 33 years earlier.

The years over the pond did him anything but bad, on the contrary, the dry Texas air preserved the body well. Since the vehicle was also well maintained in Austria, the Daily Driver presents itself with solid substance.

About 5 years ago, we had the pleasure of putting our hands on this vehicle for the first time. What started with service work was expanded in winter 2020/21 and the Silver Lady got a completely new interior.

The beautiful classic is now available for viewing and a test drive in our Appointment Hall in Parndorf.
