STORY OF THE MASTERPIECE

MEET THE ORIGINALS Unique driving pleasure is our passion. As the co-driver of your vision, we will gradually weld you closer to your individual dream car and breathe new life into it in our Porsche factory.

We do not know a lot about the origin of this nowadays rare Porsche 964 Carrera 2 Targa. As manual shifted, these are now collectors' items in almost every condition.

In our opinion, the origin is irrelevant, because what you make of it and what you want to make of it is what matters.

Colours, chassis, engine, materials, elegance, design, everything is up to you to decide, because this Outlaw should be how you imagine it.

A Vehicle Experts Outlaw turns a Porsche 964 into a 964 RST. In this process, the entire vehicle is restored and, unless otherwise requested, rebuilt according to the original specifications. In addition to the conversion to the look of the F model, the body is only widened and adjusted in steel. After that, the reconstruction of the outlaw begins according to the customer's wishes. Numerous modernization measures bring the vehicle into the modern age and thus make it an all-round perfect daily driver with a classic car look.

Feel free to contact us for the possibilities and options we offer. If your idea or wish is not in our program, we will do our best to implement it.
