STORY OF THE MASTERPIECE

EXCLUSIVITY AND PRECISION
IS OUR DRIVE

MEET THE ORIGINALS Unique driving pleasure is our passion. As the co-driver of your vision, we will gradually weld you closer to your individual dream car and breathe new life into it in our Porsche factory.

We found this Porsche 964 in southwestern Germany. As a joke, its last owner imported the car from Switzerland, but never registered the car. Nevertheless, the Porsche was driven with pleasure and workshop license plate. You can't let that go...

Unfortunately, we do not have any further details on the origin. In our opinion, the origin is also irrelevant, because what you make of it and what you want to make of it is what matters.

Colours, chassis, engine, materials, elegance, design, everything is up to you to decide, because this Outlaw should be how you imagine it.

A Vehicle Experts Outlaw turns a Porsche 964 into a 964RST. In this process, the entire vehicle is restored and, unless otherwise requested, rebuilt according to the original specifications. In addition to the conversion to the look of the F model, the body is only widened and adjusted in steel. After that, the reconstruction of the outlaw begins according to the customer's wishes. Numerous modernization measures bring the vehicle into the modern age and thus make it an all-round perfect daily driver with a classic car look.

Feel free to contact us for the possibilities and options we offer. If your idea or wish is not in our program, we will do our best to implement it.

Also, try our configurator to get a first glimpse of how you can design the future of this classic.
