APPOINTMENT HALL FOR TECHNICAL RECEPTION AWAITS YOU

STORY OF THE MASTERPIECE

INDIVIDUALITY AND TECHNICAL PERFECTION AWAITS YOU

FOUR WHEELS - ONE ENGINE and that little something extra. Get on board and start the next season together with your individual driving dream. This masterpiece withstood our qualified testing process, shines with a unique setup and is ready to go "on the road"!

The year is 1978. With its 911, Porsche is once again well positioned in the market and sales are increasing.

For the first time, as a market launch this year, there is the Porsche 911 SC. As Targa and Coupé in the popular versions.

The SC motor is designed for good torque and not so much for maximum top performance. Despite this, it delivers a very usable 180 hp at 5,500 rpm from its 3 liter cubic capacity.

In addition to the 5-speed manual transmission, the 3-speed Sportomatic can be selected as an alternative. Fortunately, this was not the case with this example, because a 911 with a manual transmission is still a 911 with a manual transmission.

Unique in this model year are the chrome-plated trim parts, such as door frames, door handles and window frames.

Inside, the owner of this Daily Driver can expect brown perforated leather and air conditioning as standard for hot summer days.
