STORY OF THE MASTERPIECE

FOUR WHEELS - ONE ENGINE and that little something extra. Get on board and start the next season together with your individual driving dream. This masterpiece withstood our qualified testing process, shines with a unique setup and is ready to go "on the road"!

New in and available now is this beautiful Porsche 997 Cabriolet, finished uniformly in black.

The water-cooled, second-generation Porsche was extensively converted with Techart parts and completely type-certified in Germany.

The impressive 20-inch rims promise a wide stance that makes an impression.

The convertible has been carefully cared for and currently has 118,000 kilometers on the clock. A service was recently performed.

To ensure that there are no problems in the summer, should you happen to get caught in the rain, the car has been completely ceramic-coated. This also helps with annoying insects.
