STORY OF THE MASTERPIECE

FOUR WHEELS - ONE ENGINE and that little something extra. Get on board and start the next season together with your individual driving dream. This masterpiece withstood our qualified testing process, shines with a unique setup and is ready to go "on the road"!

This beautiful 991.2 Coupé is our newest addition to our Appointment Hall.

Delivered in Austria in 2016, we are offering this beautiful coupé from a third-hand customer.

The first owner, up to approximately 4,500 km, was Porsche Vienna Liesing. The second owner, a retiree from the beautiful area around Marchegg, Austria, cherished and cared for the car until the beginning of 2024. During this time, approximately 25,000 km were added. All services to date have been performed at Porsche.

The current owner has taken at least as good care of the car as its predecessor. Among other things, the car was completely coated with paint protection film.

With just under 38,000 kilometers on the clock, it's a beautiful daily driver. The midnight blue 911 features extensive special equipment, including sports seats (heated and ventilated), bi-xenon headlights, and Power Steering Plus, to name just a few of the highlights.

The coupe is approved until June 2026.

The Porsche can now be viewed in our appointment hall by appointment and, weather permitting, can be test-driven. The Porsche has no deductible VAT and, for prospective buyers from Austria, currently no paid VAT.
